

Women’s Health Requirements Discovery Pack

Technical, Integration, AI, And Hosting

Please confirm what is already known and fill in any technical, integration, or governance decisions that are still outstanding.

Prepared for requirement discussion.

Topic	Question	Our current understanding	Your answer or correction	Needed in phase 1? (Yes / No / Maybe)	Needed for production? (Yes / No / Maybe)	Owner	Notes
Hosting	Where should this be hosted?	Likely a Health NZ controlled or approved NZ-hosted environment.		Yes	Yes		
Hosting	Do you need separate dev, test, and prod environments?	Likely yes for production, but pilot may be lighter.		No	Yes		
Database	Can the product use a dedicated application database?	Likely yes, but not confirmed.		Yes	Yes		
Current systems	What system or tools are currently used to manage and grade referrals today?	Unknown.		Yes	Yes		
Current systems	What EHR, PAS, or patient administration system is used today?	Unknown.		Maybe	Yes		
Identity	Is SSO required?	Likely yes if used by Health NZ staff.		No	Yes		
Identity	Is MFA required for privileged users?	Likely yes in production.		No	Yes		
Patient data	Where should patient demographics come from?	Unknown.		Yes	Yes		
Referrals	Where should referrals come from?	Unknown.		Yes	Yes		
Referrals	How do referrals currently arrive in practice?	Unknown.		Yes	Yes		
Clinic letters	Where should clinic letters come from?	Unknown.		Yes	Yes		
Discharge summaries	Where should discharge summaries come from?	Unknown.		Maybe	Yes		
Lab results	Where should lab data come from?	Unknown.		Maybe	Yes		
Radiology	Where should radiology come from?	Unknown.		Maybe	Yes		
NCSR	Is NCSR mandatory for colposcopy pilot?	Possibly yes for some scenarios, but not confirmed.		Maybe	Yes		
NCSR	How do staff currently access NCSR in practice?	Unknown.		Maybe	Yes		
Restricted access	Who approves access to restricted systems such as NCSR?	Unknown.		No	Yes		
Integration method	How could referral and clinical data be accessed in practice?	Unknown.		Maybe	Yes		
Approvals	Are there existing approval processes for new clinical software or pilots at Health NZ Counties Manukau?	Unknown.		No	Yes		
Other vendor	What is the relationship between this work and the other vendor's project?	Unknown.		Yes	Yes		
Storage	What document storage platform is approved?	Unknown, but likely managed and governed.		Maybe	Yes		
Email or notifications	Is outbound notification or mail delivery available?	Unknown.		No	Yes		
AI scope	Is AI assist in scope for the first pilot?	Unknown. The email suggests this is a longer-term goal, but this needs confirmation.		Yes	Yes		
AI platform	If AI is allowed, which platform is approved?	Unknown.		No	Yes		
Privacy	Can real patient data be used in pilot?	Likely only under approval, otherwise redacted cases first.		Yes	Yes		
Retention and audit	What audit and retention requirements apply?	Unknown.		No	Yes		
Pilot sequencing	Which service should go first?	Colposcopy may be easier, but this needs confirmation.		Yes	Yes
